3. The future of Ecological Sustainability

1. Introduction to Ecological Sustainability

Co-funded by
the European Union

Understanding Ecological Sustainability

Definition

Balancing human activities with the natural environment for current and future well-being.

Co-funded by
the European Union

Understanding Ecological Sustainability

Evolution

Inspired by
historical
environmental
movements and
indigenous
practices.

Co-funded by
the European Union

Understanding Ecological Sustainability

Social Equity

Inclusive decision-making for marginalized communities.

Co-funded by
the European Union

Understanding Ecological Sustainability

Key Principles

Biodiversity
conservation

Resilience-
building

Sustainable
resource
management

Understanding Ecological Sustainability

Community Involvement

Crucial for sustainable practices and global cooperation by recognizing local roles in sustainability

Co-funded by
the European Union

Understanding Ecological Sustainability

Economic Viability

Circular economy practices and green financing prioritize long-term well-being and minimize waste by aligning financial interests with environmental responsibility.

Co-funded by
the European Union

Sustainable Development Goals Role

Sustainable Development Goals Role

Preserving managing water resources
Universal access to clean water and sanitation
Sustainable water management practices

Sustainable Development Goals Role

Promote renewable energy sources

Universal access to affordable & sustainable energy

Co-funded by
the European Union

Sustainable Development Goals Role

Sustainable urban development

Pollution reduction

Preservation of green spaces

Co-funded by
the European Union

Sustainable Development Goals Role

Sustainable consumption and
production patterns

Waste reduction

Promotion of circular economy

Sustainable Development Goals Role

Mitigate greenhouse gas emissions
Improve ecosystem resilience
Natural balance

Sustainable Development Goals Role

Protect marine environments

Promote sustainable fishing practices

Co-funded by
the European Union

Sustainable Development Goals Role

Preservation of terrestrial ecosystems

Forest restoration

Biodiversity conservation

Activity 1

Individual activity

Sustainability Brainstorm

Co-funded by
the European Union

Activity 1 - Individual activity

Objectives: Develop and present practical solutions for promoting ecological sustainability and achieving SDGs 13, 14, and 15 in various aspects of daily life.

Duration: 90 minutes

Co-funded by
the European Union

Activity 1 - Individual activity

Activity 2

Case Study Analysis

SMEs focused on Ecological Sustainability

Co-funded by
the European Union

Activity 2 - Case Study Analysis

Objectives: Analyze and draw insights from case studies of five enterprises that demonstrate exemplary practices in ecological sustainability.

Duration: 70 minutes

Co-funded by
the European Union

Activity 2 - Case Study Analysis
